# COMPANY PROFILE

## ***...A Vital Part of Connection World***

### *Quality Control*

Our company sees the products' quality as the most important thing in a business. In order to meet High quality, our quality control managers stick to the following duties:

- 1.Ensure all the raw materials are qualified, in-process and completed products.
- 2.Stick to the quality standards.
- 3.Influence the process of quality programs.
- 4.Related duties as QC for inspecting and auditing.
- 5.Doing failure testing against physical defects.
- 6.According to customers' request to help workshop do the testing before the delivery of final products.

Under such strict management system of quality control, our products were highly recognized by the market. We believe that the prospect of our products is cheerful and expectable.
